OBJECTIVE

I am a senior majoring in Artificial Intelligence at FPT University in Vietnam, with a solid background in mathematics and computer science. My deep passion for AI and Machine Learning drives both my academic journey and research endeavors. I aspire to pursue a PhD to establish myself as a leading researcher in Machine Learning. Through my work, I strive to address complex challenges, develop innovative solutions, and make a meaningful contribution to advancing modern technology.

EDUCATION

FPT University

Bachelor of Information Technology; Major: Artificial Intelligence

Ho Chi Minh, Vietnam

2022 - Expected 2026

- CGPA : 9.27/10

UTP University

Intensive English Programme

Perak, Malaysia

Jun 2023 - Jul 2023

WORKING EXPERIENCE

AI Engineer Intern

Pythera AI

May 2025 – Now

BeQ Holdings, Thu Duc City, Ho Chi Minh

- Built an AI-powered chatbot for trading assistance using DSPy and the Agno Framework, enabling multi-agent reasoning and decision support.
- Fine-tuned LLMs for domain-specific reasoning tasks, improving contextual accuracy and response stability.
- Integrated Langfuse for observability, enabling trace analysis and performance monitoring of agent interactions.

Research Collaborator

Taipei Medical University, Taiwan

Apr 2025 - Now

Remote

- Joint research on AI for breast imaging, with a focus on mammography analysis, Breast MRI.
- Developing semi-supervised learning methods for mammography segmentation.
- Contributed to model implementation, experimental evaluation.

Mathematics Teaching Assistant

Uranus Developing and Training Center

Oct 2023 - Nov 2024

Di An, Binh Duong

- Assisted teachers in explaining concepts and solving exercises for secondary and high school students.
- Provided one-on-one academic support and answered student questions during class sessions.

AWARDS AND HONORS

- Top 100 Outstanding Students of Fall23, Summer24, Fall24, Spring25.
- Achieved 70% Full Scholarship for Bachelor's Degree Program at FPT University.
- Third prize - Mathematics City excellent student contest 2022.
- Third prize - Solving Mathematics on calculator excellent student contest 2022.
- Achieved Odon Vallet Scholarship 2021.

SKILLS

Programming	Python, C/C++, LaTeX
Machine Learning	Deep Learning, Computer Vision, NLP
Frameworks	PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, Langchain, Langfuse
Tools	Git, Docker, Linux
Database	SQL
Languages	English (Professional Working Proficiency)

EXTRA-CURRICULAR ACTIVITIES

AI VIET NAM 	Jun 2024 - May 2025
<i>AI Resident</i>	
• An organization that host Artificial Intelligence and Data Science courses. • Studying toward becoming an AI Researcher, Data Science, AI Engineering.	
Peer Reviewer for International Journals 	Jun 2025 - Now
<i>Reviewer</i>	
• PLOS Digital Health (Public Library of Science) • PLOS ONE (Public Library of Science)
